Foreword

TO THE TRADE:

War conditions which have seriously affected the production of flower seed for the past three seasons have not materially improved. The circumstances under which we must operate are difficult, nevertheless we have planted sufficient acreage for 1945 crop, if normal yields are experienced, to supply our regular customers with approximately the same quantity of most of the items that they obtained from us last season.

Our plantings are limited on all varieties with the result that amounts produced will not be large, but we shall make an equitable distribution of all the available seed among our regular customers on a basis of the quantity that they regularly obtained from us prior to the war.

To the seed trade we extend a most cordial invitation to visit our trial grounds and our extensive ranches, and personally acquaint themselves with the purity of our cultures. We shall be glad to supply trials gratis to any member of the Seed Trade.

We thank the trade for their patience and the consideration they have shown us during these difficult times.

GENERAL CONDITIONS OF DELIVERY

For every order that we shall accept, we have sufficient land planted to produce the desired quantity of seed under normal conditions.

Should the outcome of the crop be lower than our estimation, orders will be filled pro rata only. Crop failure or any other cause beyond our control releases us entirely from delivery.

We give no warranty, express or implied, as to the productiveness of any seeds we sell and we will not be in any way responsible for the crop. Our liability in all instances is limited to the purchase price of the seed.

TERMS

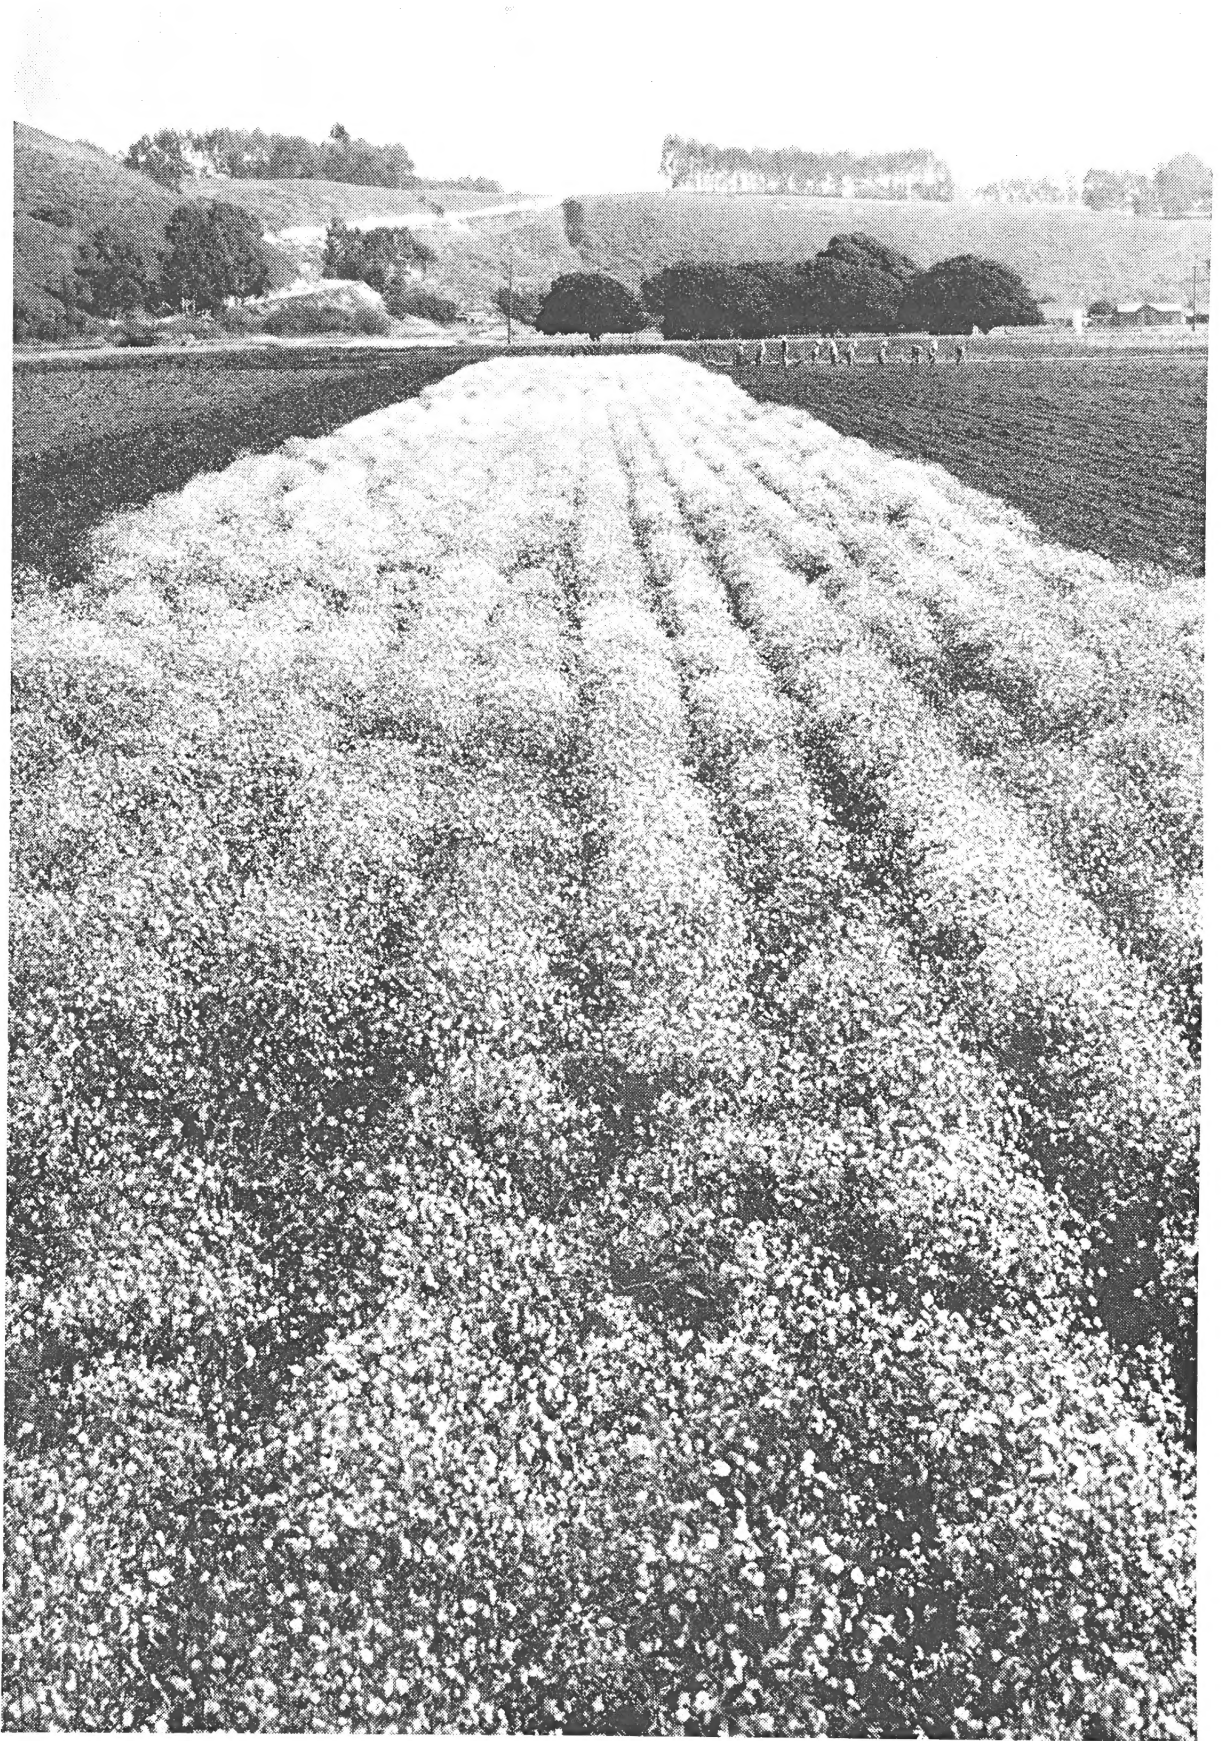

All seeds are quoted f.o.b. Guadalupe, California, for delivery after harvest crop of 1945, 60 days acceptance net, less 2% cash thirty days. Invoices payable in U. S. dollars only. All overdue accounts subject to sight draft without further notice. Bags and containers will be charged at cost and are not returnable.

We reserve the right to change prices in this list at any time.

ANTIRRHINUM or SNAPDRAGON annual

We have developed the Rust Resistant class of Antirrhinums to such a degree that they now supersede in every respect the old ordinary types which can no longer be profitably grown in this section as a seed crop.

With a complete range of colors available in the most important groups, we urge our customers to catalog the Rust Resistant class on which a source of seed supply is assured.

MARIGOLD (Tagetes) annual

The botanical name of the African Marigold is *Tagetes Erecta*. The French Marigold is *Tagetes Patula*.

MARIGOLD TALL AFRICAN DOUBLE FISTULOSA, 3 ft.

ALL-DOUBLE—An especially fine tall branching strain, bearing enormous flowers of the quilled type. One of the greatest improvements in the history of African Marigolds. No longer do we have to be content with a high percentage of singles. This strain is 100 per cent double, with huge perfectly formed blooms.

As originators, we claim to have the most perfect and best strains. Especially selected for florists.

PANSY WALLER-FRANKLIN SPECIAL FORMULA MIXTURE
OF SWISS GIANTS

A magnificent blend of Swiss Giant Pansy, characterized by a predominance of rich wine colors, which far surpasses, in form and range of dark, rich colors, any mixture of Swiss Giant Pansy that we have seen. The plants are uniformly compact and most of the blooms are waved, giving them the appearance of being frilled.

This Formula Mixture has been one of our special items for a number of years. It has been well received by the critical Pansy seed buyers and, with confidence, we recommend it to every firm not already buying this blend.

EIGHT WALLER-FRANKLIN SPECIAL STRAINS

Much better than the ordinary strains. Through years of careful selection we have produced varieties near perfect in purity and we have greatly increased the size of the blooms, as well as the length of the strong wiry stems.

The five varieties preceded by (†) were sent to the R.H.S. and all received awards of merit. The varieties not marked are of more recent introduction, and trials have not yet been submitted.
